

LIRICA

Ludovica e Roberto Palomba,

Lirico e Lirica. A modular system and a chair designed by Palomba+Serafini. In this case, the duo has focused on the theme of lightness, looking for floating, linear shapes that appear to be fluctuating above the floor. They have achieved this by means of the masterly use of cast feet: a graceful, distinguishing detail of this sofa's personality. Lirico's comfort stems from the fact that it is made up of just a few, essential parts with cleverly-devised details.

Wood structure with elastic belting and padding in polyurethane foams with different densities. Seat cushion in polyurethane foams with different densities. Back cushion included. Removable cover in fabric or fixed in leather. Feet in cast aluminum, painted in black or silver color. Indoor use only.
