

MERIDIANA

Christophe Pillet,

The Meridiana table stems from the ultimate globetrotter chair, revised this year with solid wooden legs. An archetype of the coffee shop or domestic table, it displays a precious balance between the round, wood particleboard top and the solid wood frame and legs. A mass-coloured clay mixture is smoothed over the top by hand with a scraper. The table's aesthetic is distinguished by the shaded, handmade finish of its top. Available in the following colours: volcano red, lava black and champagne.

Structure and legs in solid wood lacquered ash. Tops in wood particles with beveled semi-elliptical edge with surface finish hand made shaving a spatula of a colored clay-based compound. The nuances of the manual application characterize the aesthetics of the product. The final treatment makes the product water-repellent and stain-resistant. Indoor use only.
