

VENUS

Fabio Novembre,

Just like the Venus bookcase, launched by Driade in 2017 and designed by Fabio Novembre, the homonymous sideboard presented at the 2023 Salone del Mobile depicts the statue of a goddess. Design and art blend together. Art offers the opportunity to enjoy beauty, while function is something design can never escape.

Sideboard made of 25 mm/0,98"thick medium-density wood fibreboard. Matt lacquered finish in traffic black, floor-standing plinth in mirror finish with adjustment feet for leveling. Front composed of two hinged doors with 45° bevel with movable internal shelf and two full-extension drawers with 45° bevel. Door and drawer opening system by means of push- pull. Open compartment with inserted white reconstituted marble sculpture
