

## BALANCE

BALANCE is a fixed round table with a simple yet iconic profile, its graceful line combining three elements: the bulging base, central column and the round top.

The round top rests on a coated metal column pedestal.

Despite the small contact area between the load-bearing column and the bulging base, the table is extremely stable thanks to its heavily weighted metal base.

Slender, elegant, and simple, BALANCE satisfies any practical and aesthetic needs and can adapt to a variety of contexts, including domestic settings and public or commercial spaces.
