

ARENA

Range of complementary items made from tubular metal with a round wooden top featuring raised edges. Upholstered in regenerated leather.

A new range of tables whose elegant simplicity is elevated by a harmonious aesthetic. ARENA has a matt metal frame and top in stained wood rimmed with a strip of regenerated leather. This fashion-inspired detail embraces the table top, turning it into a private personal sphere - a virtual protective arena in which to retreat and take a break from the pressures of the day. In this version, the table top can also become a handy removable tray.
