

Kilian round

Kilian is a bed with a bold aesthetic and inviting look. It has a soft yielding feel, yet ushers a sense of dramatic elegance into the bedroom as is evident from the solidity of the legs. In this version, the headboard has a soft silhouette which is cleverly counterpointed by the sharply defined bedframe. Its bold beauty is belied by the inviting softness of its design with the sumptuous headrest split into two different parts. The bed can be ordered in two versions: either with a suspended bedframe or in a storage version with a floor-level bedframe.
