

Akira Carpet

KIT MILES

The colours in the Akira Carpet, by Kit Miles, drag into one another, giving a sense of motion. Like looking at the reflection of flowers in a puddle during a rainstorm. Or the blurred view of a window showing a neon-lit cityscape. The tones are artfully selected from water-based inks and bring richness, warmth, and texture into your home. Designer Kit Miles took full advantage of the unique capabilities of Moooli Carpets, creating a collection of carpets that could not be created with traditional methods alone. The abstract and dynamic designs create a keen sense of place, whether used in your home, a restaurant, or hotel. The Akira Carpet comes in multiple colourways, to invigorate any space.
