

Forest Floors Carpet

FRONT

Forest Floors Carpet by Front is a collage of paintings, sketches, 3D scans, and photography of forest floors. The design is a reminder of what makes us genuinely happy; being in nature. Smelling clean forest air and surrounded by different layers of green and brown. Studies have shown that being in a forest, seeing the various elements of nature, makes people feel good, and Forest Floors brings those essential elements of life into our interiors. Feel as good in your home, office, or even a hotel as you would in a brimming forest with Front's Forest Floor Carpet.

Detailing

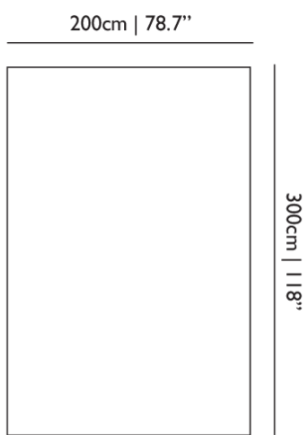

The natural elements of a forest that make you happy are all present in Forest Floors.
