# 4-UP

Meet 4-UP—the ultimate sit-to-stand experience with a dynamic, telescoping gaslift. Unlike traditional solutions that limit users to sitting or perching, 4-UP unlocks the full potential of a sit-to-stand desk, allowing seamless movement between sitting, standing & every position in between. Featuring seat depth adjustment, ergonomic forward tilt & Via Seating's proprietary injection-molded comfort foam, 4-UP delivers unmatched comfort & support. It's no surprise it became the first-ever Best of NeoCon Business Impact award winner for an ergonomic desk chair.

## Design by S.I. Design & Via Seating

In 1996 Lorenzo founded S.I. Design with designers Mirco Pegoraro and Mauro Naletto. S.I. specializes in furniture design, particularly for offices and communal spaces. Today, their team of eight focuses on design and technical assistance in product development utilizing advanced modeling programs.

The dynamic telescoping gas lift with quick adjust advanced synchro, seat depth adjustment & forward tilt was designed by Via Seating.

# 4-UP

## Smart Features

**1) Breathable Comfort:** 4-UP's 4-way stretch elastomeric mesh back provides superior support with enhanced airflow, keeping you cool & comfortable throughout the day.

**2) Flexible Arm:** The roll back arm on 4u features smooth height adjustment & a backward-moving design, making it easy to get closer to your workspace or slide under desks with ease.

**3) Precision in Motion:** The quick-adjust synchro with limited seat depth adjustment, forward tilt, a 5-position tilt limiter, back tension & height adjustment—delivering total ergonomic control at your fingertips.

**4) Sit-to-Stand Desk's Perfect Pairing:** The telescoping gas lift on 4-UP is perfect for sit-to-stand desks, smoothly reaching every height for seamless transitions between sitting & standing.

## Product Detail
