Design Lievore Altherr Molina

“
Thanks to its transparent and aerial architecture the Valencia dining table creates original visual effects through the combination of the glass base and the top available in different materials and finishes. An idea that shapes infinite possibilities, always with a unique design.

Come un'architettura trasparente ed aerea, il tavolo Valencia crea inediti effetti visivi, attraverso l'abbinamento fra la base in cristallo e il piano in diversi materiali e finiture. Un'idea che dà forma a molteplici possibilità, sempre con un design inconfondibile.

”

Glass

The lacquering used for our furniture is extremely durable as long as you avoid scratching it or bumping particularly hard/sharp objects against it. The glass is lacquered only on the back side both for mono or two-tones lacquered and frosted lacquered glasses. The shade of the samples is only indicative and has not to be taken as restrictive. It can in fact slightly differ in conformity to the tolerances recognized for the materials used. All the materials we use can be easily cleaned with water only or with a mild detergent. Do not use abrasive materials, acids or harsh chemicals. The glass is interpreted through its transparency, therefore the conformity to the sample might differ according to the surface and the thickness used. For example, the extralight glass is completely neutral when seen in the small samples, but it takes a light blue/greenish shade when used on bigger or thicker tops. For this reason, we beg you to indicate carefully those articles which have to be placed side by side or which are part of the same commission.

The two-tones finish consists of a double lacquering on the internal part of the glass sheet. The first lacquering, which is visible through the transparency of the glass, is available in the finishes of cat. B-D. The second lacquering, which is visible internally, is the same of the mat pastel used to get the finishes of cat. B. Please notice that the final effect is different from the one created by the same lacquering through the glass, in particular when it comes to soft colours.

Mirrors

Gold and rose mirrors could have small imperfections due to the particular technical characteristics of the material. We recommend not to use them in damp areas. Clean only with a dry cloth.

Ceramic

The shown samples are part of the bigger slabs Sovet works with. The complete slab is visible in the corresponding folder. Clean using water and a small amount of neutral detergent. Avoid using detergents with wax and waxing products to avoid the formation of greasy layers.

Wood

Wood colours are indicative samples. Clean using a damp soft cloth.

Metals

Metals colours are indicative samples. Clean using a damp soft cloth.

Fabrics/Leathers/Fake leathers/velvets

Fabrics colours are indicative samples. For care and maintenance please refer to the instructions present in the corresponding folders and to the technical sheets provided by the manufacturers.

In case of further doubt please get in touch with the factory.

designer

Lievore Altherr Molina

Lievore Altherr Molina, was founded by Alberto Lievore, Jeannette Altherr and Manel Molina in 1991. The Studio focuses on product design, consultancy and art direction work for a number of companies, offering personalized solutions to industry. Known by its furniture design, it also develops interior design projects, packaging and product design. In many opportunities, the Studio gives seminars and courses cooperating with several Spanish universities in forming new professionals. It currently works for firms in Spain, Italy and the United States, outstanding its projects for companies such as Andreu World, Arketipo, Arper, Arruti, Bellato, Bernhardt, Casamilano, Do+Ce, Dona, Emmebi, Foscarini, Halifax, Metalarte, Orizzonti, Perobell, Poltrona Frau, Roda, Santa & Cole, Segis, Sellex, Sovet, Sunroller, Tacchini, Tisettanta, Verzelloni, Vibia, etc. Award-winner with Spanish National Design Award (1999) it has received numerous awards and special mentions, both in Spain and abroad, for its work, including several ADI-FAD Deltas Gold and Silver. It has held both individual and joint exhibitions in Barcelona, Cologne, Chicago, Stockholm, Helsinki, Lisbon, London, Louisiana, Madrid, Malmö, Milan, New York, Paris and Tokyo. Its designs are featured regularly in Spanish and international trade magazines.

Lo Studio Lievore Altherr Molina è composto da Alberto Lievore, Jeannette Altherr e Manel Molina, che hanno formato una società nel 1991. Lo Studio si dedica all'industrial design, alla consulenza e alla direzione d'arte di diverse ditte, offrendo soluzioni personalizzate alle aziende. Conosciuto per i suoi progetti d'arredamento, sviluppa inoltre progetti di design d'interni, packaging e industrial design. Oltre a tali attività, si ricordi la docenza esercitata in seminari, workshop e conferenze, presso diverse Università spagnole aiutando la formazione di nuovi professionisti. Attualmente svolge attività in Spagna, Italia e Stati Uniti, collaborando con aziende come Andreu World, Arketipo, Arper, Arruti, Bellato, Bernhardt, Casamilano, Do+Ce, Dona, Emmebi, Foscarini, Halifax, Metalarte, Orizzonti, Perobell, Poltrona Frau, Roda, Santa & Cole, Segis, Sellex, Sovet, Sunroller, Tacchini, Tisettanta, Verzelloni, Vibia, etc. Lo studio ha ricevuto numerosi premi e riconoscimenti nazionali e internazionali per i lavori svolti, tra cui il Premio Nacional de Diseño (1999) e diversi Delta de Oro e Delta de Plata dell'ADI-FAD. Ha realizzato mostre personali ed esposizioni a Barcellona, Colonia, Chicago, Stoccolma, Helsinki, Lisbona, Londra, in Louisiana, a Madrid, Malmö, Milano, New York, Parigi e Tokyo. I lavori vengono pubblicati regolarmente su tutte le riviste specializzate nazionali ed estere.

photovoltaic systems

sustainability is made up of facts.

Sovet has always maintained a high attention to eco-compatibility since its birth in 1987, through the selection of raw materials and the study of production processes that have the lowest impact on the environment with the aim of creating long-lasting products.

Sovet ha sempre mantenuto alta l'attenzione all'ecocompatibilità sin dalla sua nascita nel 1987, attraverso la selezione delle materie prime e lo studio di processi produttivi che abbiano il minimo impatto sull'ambiente con lo scopo di creare prodotti durevoli nel tempo.

502695,549 kg emmisions saved per year

2989 trees saved per year

165 barrels of oil saved per year

For its production processes, Sovet uses energy coming directly from renewable sources. Thanks to its photovoltaic systems, it is able to meet its own energy demand.

Per la sua produzione Sovet utilizza infatti energia derivante direttamente da fonti rinnovabili. Attraverso impianti fotovoltaici riesce a soddisfare il proprio fabbisogno energetico.

packaging

Sovet uses cardboard packaging with limited presence of oil-derivates.

Sovet usa imballi di cartone costruiti ad hoc con limitata presenza di derivati del petroli.

reducing plastic is an habits

To reduce the consumption of plastic and disposable bottles within its offices and production, Sovet created metal water bottles.

Per ridurre il consumo di plastica e bottiglie monouso all'interno dei suoi uffici e della produzione, Sovet ha creato delle borracce in metallo.

made in italy

The creative use of industrial processes, the use of raw materials of highest quality and the scrupulous work of master craftsmen, allow Sovet to create high quality and 100% Made in Italy collections. Thanks to state-of-the-art industrial automation systems, Sovet is also able to meet also large supply needs for contract spaces, always granting the highest quality standards. The company takes a continuous search path for materials, to create an offer of accessories that complement one another, furnishing different kinds of environments with the maximum freedom when it comes to customization.

L'impiego creativo dei processi industriali, l'utilizzo di materie prime di assoluta qualità e le scrupolose lavorazioni eseguite da maestranze artigiane, permettono a Sovet di ottenere collezioni di alta qualità e 100% Made in Italy. Grazie a sistemi di automazione industriale all'avanguardia Sovet è in grado di soddisfare anche esigenze per grandi forniture destinate a spazi contract, sempre garantendo i più elevati standard qualitativi. Sovet intraprende un percorso di ricerca dei materiali per creare un'offerta di complementi che si integrino tra di loro, arredando varie tipologie di ambienti con la massima possibilità di personalizzazione.
