

Jeté

Jeté embodies graceful motion, slimline elegance & award-winning innovation. This triple award-winning series combines signature comfort with a sophisticated, contemporary profile, available in high & mid-back designs. Its sleek silhouette is further enhanced by exquisite detailing, including shadow tufting, parallel & box hand-sewn patterns. A perfect balance of beauty & function, Jeté is designed by Gensler as product design consultant & Via Seating, redefining modern seating with timeless style & sustainable craftsmanship.

Design by Gensler & Via Seating

The award-winning, lovely & sustainable, Jeté conference seating series was a collaboration between GENSLER as product design consultant & Via Seating. Together, they crafted unique technology seen in the flexible back bands, comfort utilizing Via Seating's proprietary injection-molded comfort foam & a sleek high design into the Jeté series.

Smart Features

1) Distinctive Back Styles: Available in high & mid-back options, Jeté features three unique, hand-sewn stitch patterns—shadow tufting, box stitch & plain stitch—for a refined, tailored look.

2) Flex Band Comfort: Unlike typical slimline chairs that compromise on comfort, Jeté uses unique flex band technology—durable bands stretched across an automotive-inspired steel frame, layered with injection-molded comfort foam—to deliver unexpected flexibility & comfort in a sleek, modern silhouette.

3) Conference-Ready Controls: Mechanisms include a dynamic knee-tilt that pivots near the knees for a more natural recline & upright posture or a basic conference tilt for straightforward comfort during meetings.

4) Base Variety: Jeté offers a range of high & low-profile base options, allowing users to tailor the chair's aesthetic & functionality to suit executive, conference or meeting room settings.

Product Detail

Models

Conference chairs
Executive applications

Compliance
