

Linate

Step back in time with Linate—the original signature chair that launched in 1987, the same year Via Seating was born. A true classic, Linate combines timeless design with exceptional structural integrity, making it a standout choice for a variety of spaces, from contemporary offices to more traditional settings. Its refined silhouette & enduring craftsmanship ensure both style & durability, offering a seating solution that remains as relevant today as it was at its inception. Available in high & mid-back options, the mid-back model also offers jury seating configurations, providing added versatility for courtroom & institutional settings. Linate is a testament to Via Seating’s legacy of quality, innovation & design excellence.

Design by Ed Abadie

Via Seating’s quintessential execu-task series, Linate & Oslo, were designed in collaboration with Ed Abadie (ABA Design) to deliver superior comfort & craftsmanship. These chairs feature Via Seating’s signature injection-molded comfort foam, a durable steel framework inspired by automotive engineering & expertly hand-stitched detailing. The result is a perfect blend of ergonomic support, long-lasting durability & refined elegance.

Smart Features

1) Proven Legacy: In the market since 1987, Linate pairs timeless durability with fine, hand-sewn executive stitching—built to last & crafted to impress.

2) High Back Versatility: Choose between the sleek rocker single shell optimized with knee-tilt comfort or the ergonomic split shell with dynamic synchro technology—all in the same refined high back design.

3) Arm Customization: Choose from refined black, polished or upholstered fixed or execu-task adjustable arms—with options for height, depth, angle & width—designed to match both ergonomic needs & executive style.

4) Signature Comfort: Carmel pairs Via Seating's proprietary injection-molded comfort foam with an automobile-inspired steel framework, creating a plush, supportive sit that surpasses standard cushioning.

Product Detail

Models
