Mirai

Andrea Steidl draws inspiration from the 13th-century Federician architecture of Puglia. Like the grand Federician castles, Mirai possesses a structure with strong yet light personality, blending architectural depth with contemporary softness. Reflecting the timeless creativity symbolized by Federico II, the project embraces a forward-looking mindset, mirroring Puglia's enduring beauty and its gaze towards tomorrow. Its seemingly divergent lines come together in an elegant optical play that creates a sense of movement. Steidl deconstructed the concept of comfort into individual elements, supported by a wooden structure on which light and soft volumes rest. The result is both visual and physical comfort that looks toward the future, while maintaining and enhancing the brand's stylistic code.

Design by Andrea Steidl

Andrea Steidl graduated in Industrial Design from the Polytechnic University of Milan in 2004, with a thesis on "Gratuity." After moving to Milan, he joined Patricia Urquiola's studio, where he took on the role of design manager. In 2016, he created his first personal project and later co-founded the studio \ar-o\ with Raquel Pacchini, focusing on product design, communication, strategic consulting, and art direction projects.

Moodboard cold neutral

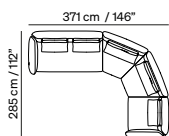

To ensure harmony in the projects, the Natuzzi Style Center carefully selects materials and coverings, creating a dialogue between them. In this case, Status leather in White has been paired with Delfino fabric in Warm White, along with performance Piazzadispagna fabric in Greige, and decorative cushions in Belpasso fabric in Grey-White Tartan. The harmonization of these coverings with woods and marbles will result in a moodboard that defines the final total look of the project. Each collection model offers multiple moodboards to adapt to various market geographies.

Moodboard cold neutral

Along with the moodboard of coverings and materials, the Natuzzi Style Center harmonizes the living room with furniture and accessories to complete the interior design project.
