Drape Light

JAMIE WOLFOND, 2024

The Drape Light by Jamie Wolfond uses its geometric structure with a 3D-knitted polyester shade to create an essential, deliberate, and warm atmosphere. Shaped by gravity, the shade drapes over two minimalistic glass LED tube lights. This versatile and thoughtful light comes in two sizes and is perfect for every space.

Detailing

Shaped by gravity, the 3D-knitted polyester fabric rests on a minimal frame of two glass tubes encapsulating LED lights.

Dimming & Lighting Control

Wireless Wall Switch (dimmer)

With our Wireless Wall Switch, you'll have full control over your Moooi lighting design with one touch. Our Wireless Wall Switch comprises two components, a wall switch and radio device to put in the canopy of your Moooi lighting design. The Wall Switch can also be integrated in existing System 55 (i.e. Gira and Jung) or Decora style wall switches. Once the radio device is installed you will also have the possibility to control your light fixture with the Casambi App available in the Google Play and Apple app store. Within moments you can enjoy full and fluent dimming, all the way to dark.

Compatible models: 118 CCC, 118 UL, 118 CE, 78 CCC, 78 UL, 78 CE

DALI dt6

The luminaire is dimmable by integrating it into a DALI network. This is an universal and professional standard in home automation systems with endless control possibilities and ease. We advise to hire a professional to integrate the luminaire into your DALI network.

Compatible models: 118 CCC, 118 UL, 118 CE, 78 CCC, 78 UL, 78 CE

Push / Pulse dim on Line Voltage

The luminaire is dimmable by using an external momentary switch or pushbutton switch. The switch is usually mounted on an existing wall socket. In some cases a Phase or Control wire needs to be added to your home's wiring. The switch should be suitable for use with line voltage and of the type 'normal off - momentary on'. The luminaire dims perfectly when the switch makes and holds contact. A short press switches between on and off.

Compatible models: 118 CCC, 118 UL, 118 CE, 78 CCC, 78 UL, 78 CE

Smart Home Integration (Zigbee)

This light fixture can seamlessly integrate into a Zigbee 3.0-based smart home network, including Philips Hue, Amazon Alexa, Google Home, Ikea Tradfri and Homey. This integration allows for wireless control and compatibility with other smart home systems, without the need to change your home's wiring. To enable this, simply add a Zigbee converter to your luminaire. We recommend the Sunricher Zigbee to Dali Converter for its reliability and compatibility. Please note that this converter is sold by third-party vendors and not directly by Moooi and this should be installed by a professional electrician.

Compatible models: 118 CCC, 118 UL, 118 CE, 78 CCC, 78 UL, 78 CE

Mains / ELV dimming is not possible

Mains and/or ELV dimming is not possible. The wireless wall switch is advised for dimming in this case.

Compatible models: 118 CCC, 118 UL, 118 CE, 78 CCC, 78 UL, 78 CE

Smart Home Integration (Matter)

Using the Matter Dali Bridge / Converter this Light can seamlessly integrate in your Matter Smart Home system like Apple Home, Google Home, Home Assistant, Amazon Alexa, Samsung SmartThings and Homey. We recommend the M2D Bridge Converter for its reliability and compatibility. Please note that this converter is sold by third-party vendors and not directly by Moooi and this should be installed by a professional electrician.

Compatible models: 118 CCC, 118 UL, 118 CE, 78 CCC, 78 UL, 78 CE
