Parker Rectangle Dining Table 110"

Tubular bronze aluminum, thick strapping and refined piping effortlessly update mid-century charm with contemporary sophistication for any outdoor space. The Parker Rectangle Dining Table is a bold design statement—crafted in tubular bronze powder coated aluminum with natural slabs of grey travertine stone, reinforced with our aluminum honeycomb structure. The legs mirror the collection's tubed details, where legs merge beautifully with backs, here creating a nice double leg detail with a subtle curve. With mixed materials creating a luxe and versatile design, this outdoor dining table easily seats eight and complements a range of styles. Complete your outdoor dining set with the matching dining chairs.

FEATURES

- Tubular bronze powder coated aluminium with double cylindrical legs that support a slab of grey travertine.
- Our custom outdoor covers are strongly recommended as an extra layer of protection against the elements and natural aging
- If the furniture will remain covered and not used frequently, we recommend periodically taking off the covers to allow moisture and humidity to dissipate from inside allowing the furniture to breathe. This helps reduce trapped humidity if the furniture is not regularly used.
