Victoria Aluminum Coffee Table

Our Victoria collection balances sculptural curves and right angles for true simplicity of proportion. The Victoria Coffee Table was designed as the perfect anchor for your seating set — featuring a stunning curved frame in powder coated extruded aluminum available in Asteroid or Taupe echoed in the rounded edges of the plank legs, with the option of a matching aluminum slatted top or contrasting slab of beautiful travertine stone. This contemporary coffee table brings harmony to a variety of outdoor spaces.

FEATURES

- Frame handcrafted of extruded aluminum in our workshop
- Superior quality powder coating applied for weather resistance
- Choose from a matching aluminum slatted top or travertine stone top
- Our custom outdoor covers are strongly recommended as an extra layer of protection against the elements and natural aging
- If the furniture will remain covered and not used frequently, we recommend periodically taking off the covers to allow moisture and humidity to dissipate from inside allowing the furniture to breathe. This helps reduce trapped humidity if the furniture is not regularly used.
