Breeze Dining Chair

The smaller brother to our Breeze XL collection, our Breeze line mixes thin tubular aluminum construction with solid teak accents for an alluring simplicity. The sleek Breeze Dining Chair is modern comfort — with an all-weather Batyline sling seat and back for support and easy cleaning, no cushion required. Lightweight and incredibly easy to move, this elegant piece is made for a variety of table sizes and spaces.

FEATURES

- Frame handcrafted in our workshop of extruded aluminum and solid Indonesian teak inlays in the arms
- Superior quality powder coating applied for weather resistance
- Batyline mesh sling suspension adds comfort to the sit and overall functionality. Batyline mesh is easy to clean, as well as resistant to fading, stretching and stains.
- Our custom outdoor covers are strongly recommended as an extra layer of protection against the elements and natural aging
- If the furniture will remain covered and not used frequently, we recommend periodically taking off the covers to allow moisture and humidity to dissipate from inside allowing the furniture to breathe. This helps reduce trapped humidity if the furniture is not regularly used.
