Design elements like oval-shaped legs elevate a geometrical silhouette, while deep seating and wide, flat arms create comfort for all-day lounging.

FEATURES

- Frame handcrafted of sustainably sourced solid Indonesian teak in our workshop.
- When properly maintained and cared for, teak is the ideal outdoor material with its natural resistance to weather, cracking and rotting. Please refer to our Care + Maintenance Guide for additional information about the care and natural beauty of teak.
- Travertine is a natural product. Formed by deposits in the earth, expect variations in color and veining to be unique to each top.
- Stone includes sealant to help protect against the elements – regular cleaning and re-application of sealant is recommended. Please refer to our Care + Maintenance Guide for more information.
- Our custom outdoor covers are strongly recommended as an extra layer of protection against the elements and natural aging
- If the furniture will remain covered and not used frequently, we recommend periodically taking off the covers to allow moisture and humidity to dissipate from inside allowing the furniture to breathe. This helps reduce trapped humidity if the furniture is not regularly used.
