## Hayman Teak Corner

Our Hayman collection is a statement in simplicity with clean angles and modern styling. Defined by its wide arms, our low-profile Hayman Teak Corner was designed to be experienced with other sectional components — sink into ultimate relaxation with a deep cushion supported by a Batyline sling suspension for added comfort, all crafted in a solid teak frame. Indoor comfort meets outdoor performance with this geometric piece made for a variety of spaces. Pair it with Hayman 2 Seat 1 Arm sofas to make a cornering sectional.

- Frame handcrafted of sustainably sourced solid Indonesian teak in our workshop
- When properly maintained and cared for, teak is the ideal outdoor material with its natural resistance to weather, cracking and rotting. Please refer to our Care + Maintenance Guide for additional information about the care and natural beauty of teak.
- Concealed Batyline mesh sling suspension adds comfort to the sit and overall functionality. Batyline mesh is easy to clean, as well as resistant to fading, stretching and stains.
- 1 seat cushion and 2 knife-edge back cushion included. Resistant to outdoor mildew, stains and fading.
- Quick dry flow-through foam seat cushion features a Dacron wrap for sink-in comfort. Back cushion is filled with Dacron.
- Our custom outdoor covers are strongly recommended as an extra layer of protection against the elements and natural aging
- If the furniture will remain covered and not used frequently, we recommend periodically taking off the covers to allow moisture and humidity to dissipate from inside allowing the furniture to breathe. This helps reduce trapped humidity if the furniture is not regularly used.
