Hamilton Footstool

Our Hamilton collection pairs clean lines with practical design. The Hamilton Footstool is designed for kicking back — featuring an extruded aluminum tubular frame in Asteroid or Taupe wrapped in double–layered woven Olefin rope in Dark or Light Grey for a softness that's also weatherproof. An easy and fun–shaped alternative to a traditional ottoman, this effortless contemporary footstool is ideal for additional seating and also adds bonus visual interest to any outdoor design.

FEATURES

· Frame handcrafted of extruded aluminum in our workshop
· Back and arms hand wrapped with all–weather Olefin rope, a defining feature of the collection that adds comfort and visual interest
· Superior quality powder coating applied for weather resistance
· Our custom outdoor covers are strongly recommended as an extra layer of protection against the elements and natural aging
· If the furniture will remain covered and not used frequently, we recommend periodically taking off the covers to allow moisture and humidity to dissipate from inside allowing the furniture to breathe. This helps reduce trapped humidity if the furniture is not regularly used.
