Noosa Dining Chair

Our Noosa collection is inspired by the beach lifestyle. The Noosa Dining Chair is a rustic mix of materials — enjoy a solid Indonesian teak frame, no cushion required, finished with a woven resin back designed to look like twisted rope. The tonality of the wood and quality of the resin beautifully complement each other in this breezy, low-maintenance piece made for all-day lounging.

FEATURES

- Frame handcrafted of sustainably sourced solid Indonesian teak in our workshop
- When properly maintained and cared for, teak is the ideal outdoor material with its natural resistance to weather, cracking and rotting. Please refer to our Care + Maintenance Guide for additional information about the care and natural beauty of teak.
- Back and seat hand wrapped with twisted resin rope for an open and comfortable design
- Our custom outdoor covers are strongly recommended as an extra layer of protection against the elements and natural aging
- If the furniture will remain covered and not used frequently, we recommend periodically taking off the covers to allow moisture and humidity to dissipate from inside allowing the furniture to breathe. This helps reduce trapped humidity if the furniture is not regularly used.
