Cove Aluminum Extension Dining Table

Influenced by modern Australian architecture and landscapes, our refined Cove collection features special details like double cylindrical legs and curved edges that create soft sculptural silhouettes. The Cove Extension Dining Table anchors your outdoor dining experience — featuring a refined powder coated aluminum frame in Aluminum Bone with an architectural double leg detail suspending a slatted aluminum top. The unique pill shape of the table top curves around the edges for an unexpected contemporary touch. A truly functional piece, slide the ends out for a generous extension from the hidden leaf in the frame in Aluminum Bone. Engineered for ease of use and bringing even more people together, pair this outdoor dining table with our matching chairs to complete your outdoor dining set.

Width:	113 in / 2870 cm
