Cove Aluminum Pill Dining Table

Influenced by modern Australian architecture and landscapes, our refined Cove collection features special details like double cylindrical legs and curved edges that create soft sculptural silhouettes. The mixed-material Cove Pill Dining Table anchors your outdoor dining experience — featuring a refined powder coated aluminum frame in Aluminum Bone with an architectural double leg detail suspending an organic travertine stone top in Cream. The unique pill shape of the table top curves around the edges for an unexpected contemporary touch that gives this design its name. Pair this outdoor dining table with our matching chairs to complete your outdoor dining set.
