Moab 107" Rectangle Dining Table

Our Moab collection uses the finest materials to create the next generation of comfort — it's the definition of bringing the indoors out. The Moab 107" Rectangle Dining Table was designed as the perfect outdoor table — featuring a powder coated extruded aluminum frame with a travertine stone top set into a matching aluminum border. Tubular construction and angled legs introduce a dynamic design element to this classic collection. This striking piece brings a modern approach to the table and a contemporary aesthetic to any space.

FEATURES

- Frame handcrafted of extruded aluminum in our workshop
- Superior quality powder coating applied for weather resistance
- Travertine stone is a natural product. Expect patterns and textures to be unique to each top.
- Table sits 6 guests comfortably
- Our custom outdoor covers are strongly recommended as an extra layer of protection against the elements and natural aging
- If the furniture will remain covered and not used frequently, we recommend periodically taking off the covers to allow moisture and humidity to dissipate from inside allowing the furniture to breathe. This helps reduce trapped humidity if the furniture is not regularly used.
