

BONALDO

By, By met

Designer: Bartoli Design

By represents not only a kitchen chair, but a true object of affection, an element that gives positive qualities to the spaces of our daily life. The By chair has a steel frame, comfortable padding in cold foamed polyurethane and upholstery in leather, eco-leather or fabric. The legs, made of solid ash-wood, are available in three colour variants. In the By met variant, the legs are in painted metal or in elegant clouded chrome, dark nickel or brown nickel finishes. The design of By and By met is characterised by the line in the middle of the backrest: a sign that becomes a refined sartorial detail, highlighting the exquisite craftsmanship for a result of great versatility, suitable for usage that ranges from the domestic environment to contract spaces.
